THE END OF THE GARDENING YEAR

As we clean up our gardens to prepare for winter, we look forward with anticipation to the coming gardening year. An exciting lineup of programs are being scheduled by our Vice President and

Program Director, Arthur E. "Buzz" Busby.

Although subject to last minute changes, the following programs are planned: This month's program (November) will be an interactive talk and demonstration on herbs and their uses; the January program will be on organic gardening; the February will be on shade gardening; the March program will be a special one honoring Tom and Bill; April will deal with landscaping with native plants; May will address the subject of Integrated Pest Management and the June meeting will be on cottage gardening. All in all it looks like it will be an exciting year!

As a result of the member survey, we will be having the popular covered dish meetings 4 times a year: in November, January, March and June. On those dates, the dinner is at 6:30 and the meeting will start a little later (at 7:30).

Plan your gardens well and for the new year: may we all reap what we sow (and maybe get a little extra in the form of a nice surprise from the compost pile).

NOVEMBER MEETING: 11/15/94

Executive Board	5:30 pm
